MAT congratulatory message, the 100th Anniversary of the Hong Kong Medical Association.

July 14th, 2020

Dear Dr. Chung-ping HO,
President, the Hong Kong Medical Association

Prof. Dr. Amorn Leelarasamee, MD,
President, the Medical Association of Thailand

On behalf of the Medical Association of Thailand, it is my honor to congratulate the 100th Anniversary of the Hong Kong Medical Association.

Our close and long-standing friendship between the Hong Kong Medical Association and the Medical Association of Thailand, is more than a word of friendship could explain. I would rather say that we are brotherhood or even twin since by the 25th October 2020, the Medical Association of Thailand will also enter the first day of its 100th year of the Association establishment.

We both have gone through many changes and difficulties in the past for almost 100 years and the most recent one, the COVID-19 pandemic. Our collaborative efforts have led to the appropriate medical results and safeguard the health of the people. I believe that the Hong Kong Medical Association has done well to its members and actively promoted the welfare of the medical profession and the health of the public.

Once again, the Medical Association of Thailand and I are very delightful and wish the Hong Kong Medical Association with all its members, the prosperous and healthy years ahead on this special 100th Anniversary celebration of the Hong Kong Medical Association.

Sincerely yours

Professor Dr. Amorn Leelarasamee, MD.
